

<b>Consulting Services (Energy Sector)</b> <b>Date for Submission: December 4<sup>th</sup>, 2008</b>	
<b>Republic of Montenegro</b>  <b>REPLACEMENT OF THE ELECTRICAL FILTER FACILITY OF THE THERMAL POWER PLANT "PLJEVLJA"</b>	
<i>Programme Executing Agency (PEA)</i>	Elektroprivreda Crne Gore (EPCG), Niksic, Montenegro
<i>Subject</i>	<p><u>Consultant services</u> during implementation of new electrostatic filters. The Consultant shall act as Employer's Representative (according to the FIDIC Silver Book).</p> <p>Thermal power plant "Pljevlja" of Russian design and origin is located in the northern part of Montenegro. The 210 MW unit was commissioned in October 1982. The plant is supplied with low grade lignite from near by open pit mines.</p> <p>The environmental parameters of the plant do no longer fulfil the actual standards and legal requirements. For this reason it was decided to replace the actual filter system of electrostatic precipitators with a modern type fulfilling EU standards. Tenders for the turn-key supply of the filter have been floated and offers are expected to be received by November 3<sup>rd</sup>, 2008.</p>
<i>Services:</i>	<p>The Consultant will assist the PEA in the <u>execution of the works</u>. He has to coordinate and to integrate the work plans. He will establish project implementation guidelines and will organize all relevant tasks needed for project implementation. He will support EPCG in managing, supervision, quality assurance, quality control, approval of design and training programmes and any other activity needed for successful implementation. He will assist in monitoring of costs, in claim management, during commissioning, acceptance testing in workshops and at site and final taking over.</p> <p>Preparation and execution of measurements as part of the performance test shall be offered by the Consultant as an option.</p>
<i>Formal Requirements</i>	Consultants may form consortia with foreign or local partners. Qualification of all partners has to be proven. The tender is held as International Competitive Bidding, following a <u>post-qualification</u> procedure.
